

## Lime in construction today

### Objective

Allow attendees to gain an insight into the use of lime mortars both in modern day construction and traditional conservation work.

### Duration

The presentation will last approximately 1 hour with time for questions during or afterwards.

### Key topics covered

- What is lime?
- The historical use of lime
- The different types of lime
- Applications and uses
- The performance properties of lime
- Aesthetic options
- Key benefits of hydraulic lime mortars
- Design considerations in utilising lime
